

DHHS CIC Study Sessions

Week 2, Pertussis and C. Difficile
Instructions to access study materials

Study Resources

- Session recordings, slides and resources will now be posted to our webpage each week rather than sent by email.
- To access, follow this link and click 'DHHS CIC Study Sessions' at the bottom of the page:
<https://epi.health.utah.gov/healthcare-associated-infections/>
- Please send copies of any slides or resources you plan to utilize when you present so that we can share them.

Use flashcards to review material from our activity

- Flashcards with today's content are available for on Quizlet
- You can download the app for Apple or Android mobile devices or access it by desktop computer
- The free version is adequate for the needs of this course

Instructions

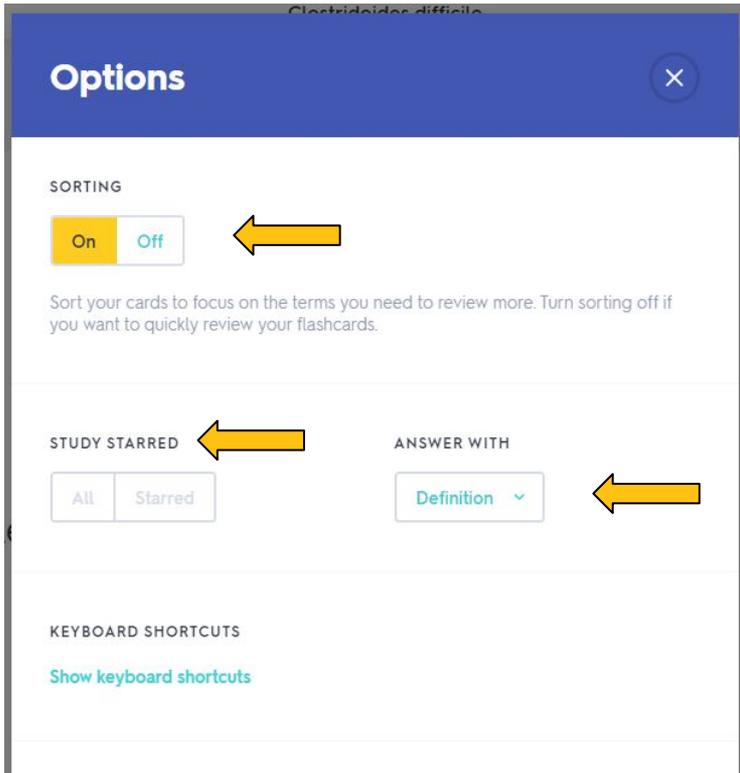

- Visit the following link to join our course
<https://quizlet.com/join/6WgawZdW3>
- You may be prompted to sign in or create an account
- Once you have joined the class, you will see both decks labeled 'Pertussis' and 'Clostridoides Difficile'
- Click on the desired deck to review

Instructions

The screenshot shows a study interface for 'Pertussis'. On the left, there are four study mode options: 'Flashcards' (Review terms and definitions), 'Learn' (Focus your studying with a path), 'Test' (0% last try), and 'Match' (Get faster at matching terms). The main area displays 'Pertussis treatment'. At the bottom, there is a navigation bar with a back arrow, '10/12', a forward arrow, a keyboard icon, a full-screen icon, and a yellow arrow pointing to the full-screen icon.

- Select full-screen mode for more customization options
- Next select 'Options' in the right-hand corner of the screen

Instructions

- 'Sorting' allows you to sort cards you already know from the ones you're still learning
- You can also highlight cards to focus on by starring them
- You can alternate answering the 'term' or 'definition' side of the cards, or a mix (for these sets I recommend 'definition')
